Claim Rejections - 35 USC § 103

- 1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 2. Claims 1 and 8 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Kieser et al. (US 5,746,501), for reasons as of record.

Response to Arguments

3. Applicant's arguments filed September 27, 2005 have been fully considered but they are not persuasive.

In response to applicant's argument that Kieser does not disclose or suggest satisfying such a particular placement fit the recited formula, the examiner finds this is to be unpersuasive. It's because Kieser discloses that the insulating plate 64 is located between each pair of electrodes 62 (col. 2, lines 60-66 and Fig. 1) and the formula recites that the offset is between zero and the right expression,

when Kieser's insulating plate 64 is located at the midpoint between the electrodes 62, the location fits the recited formula when the offset a is equal to zero.

In response to applicant's argument that Kaiser does not disclose or suggest at least the feature of using a dielectric material positioned between the electrodes, since Kaiser that silent discharges are produced between electrodes 62 and their adjacent insulating plates 64 (col. 3, lines 19-25), that "silent discharges are produced between electrodes immersed in a gas, between which there is at least one dielectric layer or a dielectric object so that no direct, i.e. metal-to-metal, discharge is possible" (col. 1, lines 13-17), and that "the insulating layer 74 serving as a dielectric can be also applied as a thin layer" (col. 3, lines 38-40), Kieser does disclose that the insulating plate is a dielectric.

Conclusion

4. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the

advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kishor Mayekar whose telephone number is (571) 272-1339. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam Nguyen can be reached on (571) 272-1342. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR

Application/Control Number: 09/852,664

Art Unit: 1753
